FORM 3-3 Declaration or Report of Schedule 3 Chemical

Declaration and reporting requirements are set forth in Part 714 of the CWC Regulations (15 CFR 714).

You must submit a separate Form 3-3 for each Schedule 3 chemical and for all types of declarations and reports (initial, past activities, anticipated or additionally planned activities, exports and imports, and amended). NOTE: If you are submitting an ANNUAL DECLARATION ON ANTICIPATED OR ADDITIONALLY PLANNED ACTIVITIES, only complete question 3-3.2.

Declared plant site: If one or more plants on your plant site produced or is anticipated to produce more than 30 metric tons of a Schedule 3 chemical, your plant site is a declared plant site and you must complete questions 3-3.1 and 3-3.2. You may also complete questions 3-3.3 and/or 3-3.4 if you exported from or imported to your plant site more than 30 metric tons of the Schedule 3 chemical. (Note that the export or import 30 metric ton threshold is a plant site aggregate. The plant site must report exports and imports from or to all plants at the plant site exceeding 30 metric tons.)

NOTE: A plant site that is declared because of the production of one Schedule 3 chemical may also have reporting requirements for another Schedule 3 chemical that it did not produce, or produced under threshold, but that it exported or imported in quantities over 30 metric tons. In such a case, the plant site must submit a separate Form 3-3, but complete only questions 3-3.3 and/or 3-3.4 for that other Schedule 3 chemical.

Undeclared plant site: If no plant on your plant site produced more than 30 metric tons of any Schedule 3 chemical, but your plant site exported or imported more than 30 metric tons of a Schedule 3 chemical, you must submit Form 3-3, but only complete questions 3-3.3 and/or 3-3.4. (Remember that the export or import amount is an aggregate of exports from or imports to all plants on your plant site.)

Trading company: A trading company that exported or imported over 30 metric tons of a Schedule 3 chemical must submit Form 3-3, but only complete questions 3-3.3 and/or 3-3.4.

Enter in the upper right-hand corner of this form the name of the plant site or trading company or the U.S. Plant Site or Trading Company Code (once assigned) that was listed on the corresponding Form 3-1 (Schedule 3 Plant Site or Trading Company Identification). Submitters should use this code on all declarations for a particular plant site.

For each Schedule 3 chemical being declared, provide the CAS Registry Number, if assigned, Chemical Name, and Common or Trade Name.

Question 3-3.1: For the INITIAL DECLARATION you must provide the production quantity range for each Schedule 3 chemical produced at the plant site in calendar year 1996, and specify the purposes of production of the chemical by checking all of the appropriate categories. For the ANNUAL DECLARATION ON PAST ACTIVITIES, you must provide the production quantity range for each Schedule 3 chemical produced at the plant site in the previous calendar year and specify the purposes of production of the chemical by checking all of the appropriate categories. To calculate the production range of a Schedule 3 chemical on your plant site, take the following steps:

1) Add the production amounts from all plants that individually produced more than 30 metric tons of the Schedule 3 chemical declared on this form. (Note: Do not count the production of this chemical from plants that individually did not exceed the production threshold of 30 metric tons.)

2) Determine the production range in question 3-3.1 and check the appropriate box to identify the range of production for the Schedule 3 chemical.

Question 3-3.2: For the ANNUAL DECLARATION ON ANTICIPATED ACTIVITIES, you must provide the production quantity range for each Schedule 3 chemical you anticipate will be produced at the plant site in the next calendar year and specify the anticipated purposes of production of the chemical by checking all of the appropriate categories. To calculate the production range for your plant site refer to the steps listed in Question 3-3.1, above.

After THE ANNUAL DECLARATION ON ANTICIPATED ACTIVITIES has been submitted, you must submit a DECLARATION ON ADDITIONALLY PLANNED ACTIVITIES if you plan that: a previously undeclared plant on your plant site will produce a Schedule 3 chemical above 30 metric tons; a declared plant will produce an additional Schedule 3 chemical above 30 metric tons; an increase to the production range of a Schedule 3 chemical by declared plants on your plant site will exceed the applicable inspection threshold; or an increase in the aggregate production of a Schedule 3 chemical at a declared plant site to an amount above the upper limit of the range previously declared.

Questions 3-3.3 and 3-3.4: For the INITIAL DECLARATION and INITIAL REPORT OF EXPORTS AND IMPORTS (calendar year 1996), and for the ANNUAL DECLARATION ON PAST ACTIVITIES and ANNUAL REPORT OF EXPORTS AND IMPORTS (previous calendar year), complete questions 3-3.3 and/or 3-3.4, as appropriate.

To calculate the export and import amounts for your plant site or trading company and the source and recipient destinations, take the following steps:

1) Add all exports from your plant site or trading company. Plant sites must total exports from all plants on the plant site to obtain the plant site export aggregate. Add all imports to your plant site or trading company. Plant sites must total all imports to all plants on the plant site to obtain the plant site import aggregate.

2) Determine the total exports to each recipient destination. Determine the total imports from each source destination. (Use Appendix C to identify the Destination Code.)

NOTE: Only indicate the total annual quantity exported to or imported from a specific destination if the total annual quantity to or from that destination is more than 1% of the applicable threshold amount (i.e., more than 0.3 metric tons). However, in determining whether your total exports and imports worldwide for the year in question trigger reporting requirements, you must include all exports and imports, including exports and imports falling within the 1% exemption in your calculation.

3) Indicate in questions 3-3.3 and/or 3-3.4, as appropriate, the number of metric tons of the Schedule 3 chemical exported to each recipient destination or imported from each source destination.

If there is insufficient space to record all of your export or import trade transactions, use additional copies of Form 3-3. Indicate the page number of each additional page and total number of pages of Form 3-3 for this chemical.
